KENDRIYA VIDYALAYA NTPC DIBIYAPUR

BEST PRACTICES ADOPTED FOR ONLINE TEACHING DURING COVID PANDEMIC

SUBJECT: ECONOMICS AND SOCIAL SCIENCE

### TEACHER NAME: KASHIF AHSAN

DESIGNATION: PGT ECONOMICS

The following are the one of the best practices adopted for online teaching learning process during covid pandemic in the subject Economics and Social Science.

1. The teacher has taught the lessons through Google Classroom and Google Meet for the better interaction of the students in teaching learning process.

2. The teacher has prepared his own notes in most of the chapters and posted in the Google Classroom for the proper and deep understanding of the lesson.

3. The students were given in advance the gist of the chapter to be taught next day so that they can easily participate actively in the online class through Google meet.

4. Since Economics is numerical based subject where ongoing solution of the numerical questions is done with the help of students hence teacher has used transparent glass as a innovative technique to solve the numerical questions.

5. The teacher has constantly conducted Online Quiz for each and every chapter for the students and Google Forms to check the performance of the students in the class.

6. The teacher has also provided emotional and moral support to the students through the audio and video messages from time to time.

7. The teacher has prepared **ONE PODCAST** for the Class 6 students in Social and Political Life book.

The followings are some photographs of the practices carried out in the online teaching learning process.

$$Given = C = 500 + 0.2$$
$$I = 5000 \text{ cs.}$$
$$\therefore Y = C + I \longrightarrow \text{①}$$
$$\therefore Y = 500 + 0.2Y + 5000.$$
$$Y = 5500 + 0.2Y.$$
$$Y - 0.2Y = 5500.$$
$$0.8Y = 5500$$
$$Y = \frac{5500}{0.8}$$
